

Family DAYCARE

Delivering the Vision

Family Day Care in 2012

A conference for educators, coordination unit staff, children's services professionals, parents and friends of Family Day Care

Delivering the Vision will provide Family Day Care professionals with evidence based information to help them deliver professional and innovative services to the children in their care. It is an opportunity to learn from peers and experts, to network and share stories of the joys and tribulations of educating young children.

This year the conference is focusing on building the professionalism of Family Day Care business owners. To achieve this, the conference will provide practical advice and support including information about National Standards, quality service provision and effective accounting and marketing strategies, to ensure these home-based business owners thrive and survive.

- DATE:** Saturday 18 February 2012
