

List of Registered CCMS software

The software listed on this page has been developed by software producers who have provided a declaration to FaHCSIA that the software has been tested against test scenarios provided by FaHCSIA, and have undertaken to abide by the *CCMS IT Security Principles For Software Developers*.

FaHCSIA is satisfied with the results against the test scenarios, however, FaHCSIA has not done any independent testing and listing on this page does not constitute an endorsement of the product by FaHCSIA.

FaHCSIA does not accept any liability for these products; any adverse affect the use of these products may have on your existing IT environment; or any outcome arising as a result of using these products including failure by you to comply with your legislative obligations. You must satisfy yourself that the particular product is suitable for your service and existing IT environment. You should evaluate alternatives and properly evaluate and test any product chosen to ensure that it works as expected and without side effects for your systems before proceeding to implement it.

You should seek independent advice if you believe that a statement made by a software producer is false and/or misleading.

If you wish to purchase software listed on this page you should do so on the basis of independent consideration and/or advice.
