## Is your access to professional development limited by distance and personal commitments?

Children's Services Central is here to help by providing a fabulous opportunity for child care staff in rural and remote regions and carers working from home!

Children's Services Central is funding a unique opportunity for child care staff in the form of online training through **One World for Children**. This professional development offers access to training in the convenience of home via the internet.

### What is it all about

Hosted online professional development presented by **One World for Children** on behalf of **Children's Services Central**.

This professional development is especially targeted to services located in rural and remote communities, and carers working from home, and is made available by Children's Services Central through **One World for Children**. Childcare staff can choose from an extensive range of workshop topics, dates and times. Examples of topics include *Early Years Learning Framework*, *Guiding Children's Behaviour*, and *Occupational Health and Safety*.

All you need is a computer with speakers, internet access and a microphone headset (complimentary headsets will be sent out for all first time registrations). Once you have registered for a session, you will be provided with a platform that gives you all of the communication tools necessary for you to participate in the session.

Please note – these bookings are subject to conditions and will only be accepted by credit card. Please go to [www.owfc.com.au](http://www.owfc.com.au) to register for courses and pay online. A subsidised rate for NSW participants will apply.

**Call Children's Services Central on 1800 157 818 toll free if you have any questions.**
